## Edit Issue Security Levels ?

On this page you can create and edit the issue security levels for the "breez-issue-level-security" issue security scheme.

Each security level can have users/groups assigned to them.

An issue can then be assigned a Security Level. This ensures only users who are assigned to this security level may view the issue.

Once you have set up some Security Levels, be sure to grant the "Set Issue Security" permission to relevant users.

- [View all Issue Security schemes.](#)
- [Change default security level to "None"](#)

Security Level	Users / Groups	Operations
<b>breez-LDP</b> <small>(Del)</small> breez leads, developers, CCS partners	<input type="checkbox"/> Group (breez-leads) <small>(Del)</small> <input type="checkbox"/> Group (breez-developers) <small>(Del)</small> <input type="checkbox"/> Group (dbas) <small>(Del)</small> <input type="checkbox"/> Group (sys-admins) <small>(Del)</small> <input type="checkbox"/> Group (sis-production-control) <small>(Del)</small> <input type="checkbox"/> Group (streek-mentors) <small>(Del)</small> <input type="checkbox"/> Group (sis-project-browsers) <small>(Del)</small>	<input type="checkbox"/> <a href="#">Add</a>   <a href="#">Default</a>
<b>breez-LDCP</b> <small>(Del)</small> breez leads, developers, customers, CCS partners	<input type="checkbox"/> Group (bearfacts-leads) <small>(Del)</small> <input type="checkbox"/> Group (bfacecess-developers) <small>(Del)</small> <input type="checkbox"/> Group (breez-customers) <small>(Del)</small> <input type="checkbox"/> Group (sis-project-browsers) <small>(Del)</small> <input type="checkbox"/> Group (dbas) <small>(Del)</small> <input type="checkbox"/> Group (sys-admins) <small>(Del)</small> <input type="checkbox"/> Group (sis-production-control) <small>(Del)</small> <input type="checkbox"/> Group (streek-mentors) <small>(Del)</small>	<input type="checkbox"/> <a href="#">Add</a>   <a href="#">Default</a>
<b>breez-LDC (default)</b> <small>(Del)</small> breez leads, developers, customers	<input type="checkbox"/> Group (sis-project-browsers) <small>(Del)</small> <input type="checkbox"/> Group (breez-leads) <small>(Del)</small> <input type="checkbox"/> Group (breez-developers) <small>(Del)</small> <input type="checkbox"/> Group (breez-customers) <small>(Del)</small> <input type="checkbox"/> Group (sis-production-control) <small>(Del)</small> <input type="checkbox"/> Group (streek-mentors) <small>(Del)</small>	<input type="checkbox"/> <a href="#">Add</a>
<b>breez-ld</b> <small>(Del)</small> breez leads, developers	<input type="checkbox"/> Group (sis-project-browsers) <small>(Del)</small> <input type="checkbox"/> Group (breez-leads) <small>(Del)</small> <input type="checkbox"/> Group (breez-developers) <small>(Del)</small> <input type="checkbox"/> Group (sis-production-control) <small>(Del)</small> <input type="checkbox"/> Group (streek-mentors) <small>(Del)</small>	<input type="checkbox"/> <a href="#">Add</a>   <a href="#">Default</a>

## Add Security Level ?

Add a new security level by entering a name and description below.

Name:

Description:
